

Debugger::Info

Debugger::Log

BattleBoxFileManager
::WriteTextArrayToFile

```
graph LR; A[Debugger::Info] --> B[Debugger::Log]; B --> C[BattleBoxFileManager::WriteTextArrayToFile];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'Debugger::Info'. A dark blue arrow points from this box to a white rectangular box containing 'Debugger::Log'. Another dark blue arrow points from the second box to a larger white rectangular box containing 'BattleBoxFileManager' on the top line and '::WriteTextArrayToFile' on the bottom line. All boxes have a black border, and the arrows are dark blue.
